Snead Wins British Open Trophy For U.S.

ST. ANDREWS. Scotland, July 5.—Sam Snead, long-driv-ing American pro, won the British Open golf championship today with a 75 in his final round. This still was better than other tiring finishers and gave him a 72-hole total of 290 and a four-stroke lead.

Johnny Bulla, another American, and Bobby Locke, South African champion, were next low at 294. Both three putted the last green.

Snead started out badly and went four over par on the out-ward nine, but recovered well and was the only one of the major contenders to better par on the back nine.

Snead's clearcut victory returns to America the old trophy which Great Britain has held since 1934. American golfers had won it for 10 straight years

Price Chief Says Bill Does Not Go Far Enough; Hot Debate Looms

By FRANCIS J. KELLY WASHINGTON, July 5 — OPA Administrator Paul Porter called on

ongress today to revise the OPA extender bill still further to bring into line with President Truman's ecommendations. The bill as amended by the sen-ate banking committee over the

protests of Senator Taft (R-Ohio). Porter said, does not go far enough. said it contains "undesirable features."

Porter's remarks came as the sente headed toward debate on the substitute for the OPA bill Mr. Truman has vetced. While Porter did not elaborate on provisions of the bill he regards

objectionable, it was understood these include:
(1) Amendments which outlaw a requirement that manufacturers produce low-cost clothing, (2) A provision for special pricing of cot-

amendment restoring the pre-war profit margins of automobile deals and household appliance distributors, (4), possibly provisions transferring authority over food prices to the secretary of agricul-ture and (5) those setting up new procedures for removal of price

ceilings. Hot Battle Looms

The senate apparently was in for hot fight on the bill. Its fate there, in the house and at the executive mansion will deermine when and if the ceilings that collapsed last Sunday midnight are to be restored.

The measure, approved 12 to 5 last night by the senate banking committee, differed in only two major particulars from the one President Truman vetoed last week witth the comment it was an "impossible" piece of legislation. The changes - both involving

profit formulas for manufacturers, wholesalers and retailers - were such that Republican Senator Taft f Ohio declared open war on the revision and announced he would pattle it on the senate floor. There it went today, with the

lessing of Majority Leader Barkey of Kentucky, nine other Demoratic members of the committeee, and two Republicans. Taft and four other Republicans voted against it

Snead Wins British Open Trophy For U. S.

ST. ANDREWS, Scotland, July 5.—Sam Snead, long-driving American pro, won the British Open golf champion-ship today with a 75 in his final round. This still was better than other tiring finishers and gave him a 72-hole total of 290 and a four-stroke lead.

Johnny Bulla, another American, and Bobby Locke, South African champion, were next low at 294. Both three putted the last green. Snead started out badly and

went four over par on the outward nine, but recovered well and was the only one of the major contenders to better par on the back nine.

Snead's clearcut victory returns to America the old trophy which Great Britain has held since 1934. American golfers had won it for 10 straight years

The changes — both involving rofit formulas for manufacturers, wholesalers and retailers — were such that Republican Senator Taft f Ohio declared open war on the vision and announced he would

There it went today, with the clessing of Majority Leader Barkley of Kentucky, nine other Demo-cratic members of the committeee, and two Republicans. Taft and four

They Hope, They Hope

thousands of OPA employes and economic regimen- tersection of Broadway and Main st.

They hope private enterprise will run hog-wild on price boosting and give itself a black eye in a hurry, south of town. because their jobs depend on it. They and the grand strategists of economic planning and profit control celebration Wednesday at the home of Miss Esther gums become soft and are cut by not allowed to use the tooth brush who want to perpetuate their power are sure that Maule, E. High st. Americans cannot be trusted to give one another a fair shake without bureaucratic supervision-they hope, they hope, they hope.

Chester Bowles, who resigned as economic stabilizer but is still talking, has done his conclusion-jumping early. "If we ever wanted vindication of what we have been fighting for," he yelled over a national it today." He was joined by Paul Porter, OPA administrator, who told the employes of his defunct organization to hold tight to their jobs because the Truman Main st. administration was going to get the kind of price control authority it wanted.

All this adds up to an extremely significant answer. For five years an two-months-odd, ever since Franklin D. Roosevelt gave Leon Henderson power to fix prices without legislative sanction, the American people have been groomed by their government to distrust private enterprise. The groundwork for the distrust had been laid carefully in the smear-business campaigns of the New Deal.

The coming of war provided an excuse to do what politicians and their ideological backers in the ism fringe had itched to do-to seize control of all enterprise. To be sure, they jumped the gun a little (Congress did not legalize their plan until Jan. 30, 1942) but that was overlooked because it was obvious that wartime shortages and the necessity for maximum production of all kinds of war material made control authority necessary. No nation in modern times can

fight an all-out war without a regimented economy. The question of getting rid of the regimentation when the war was over was easy to put aside pending victory. It became pressing when the war was over Reassurance was given by President Truman's promptness in liquidating rationing and wage controls. Price controls, it was assumed, would follow-but in Washington there were other ideas. Price control, with rationing and wage controls abolished, became profit control. Again, the people heard from their government that business could not be trusted. The New Deal smear campaign was revised, this time with Chester Bowles leading the accusation chorus.

Circumstances have conspired, more or less accidentally, to force a showdown on the issue of a free versus a regimented economy. Given chaos to start from, manufacturers, farmers, processors, distributors and all the other suppliers of the nation's needs are going to try to prove they can do a better job under their own initiative and judgment than they were doing under the bureaucratic fumbling of OPA It is not a fair trial, but it is the best they can expect. Their own government and its backing of clamorous minorities are pulling for them to lose, and trying to make sure they can't win by slapping OPA back on them before the people can learn what it would be like to get along without it.

Good Luck To The Philippines

The bestowal of independence on the Philippine Islands according to the schedule set up in 1934 is a triumph of international punctuality. It was only a uated from St. Vincent's Charity hospital in Cleveyear ago last February that Gen. MacArthur returned land civil government to the islands, with Japanese troops still under siege in buildings inside Manila.

Japan's wartime conquest of the islands proved their inability to retain independence in the face of oriental imperialism. Now, with Japan routed and demilitarized, the seriously-weakened nation has a bet- gagement to Harry Waller of Macon, Ga. ter chance of survival. Responsibility for it defense, of course, will continue to rest where it has rested for

50 years-on the United States. Independence moves in strange ways its wonders Bainbridge, N. Y. to perform. Informed Filipinos, who have a high aptitude for political realism, know that the promise of ed Tuesday from Cleveland where they visited over independence in 1934 was dictated more by tariff pol- the Fourth with their daughter, Mrs. C. By keeping the spirit fresh and vital in granting independence when promised, the United States has given evidence of good

faith that answers all past charges of imperialism. For the last 50 years American intentions in the Philippines have been questioned. They were made an issue in domestic politics. The issue now is closed. The Philippine Islands will be a worthy addition to the family of nations, granted reasonable luck and excellent statesmanship. This is to wish the Filipinos may have both.

The groundwork for the distrust had been laid carefully in the smear-business campaigns of the New Deal.

The coming of war provided an excuse to do what politicians and their ideological backers in the ism fringe had itched to do-to seize control of all enterprise. To be sure, they jumped the gun a little (Congress did not legalize their plan until Jan. 30, 1942) but that was overlooked because it was obvious that wartime shortages and the necessity for maximum production of all kinds of war material made control authority necessary. No nation in modern times can fight an all-out war without a regimented economy.

The question of getting rid of the regimentation when the war was over was easy to put aside pending victory. It became pressing when the war was over Reassurance was given by President Truman's promptness in liquidating rationing and wage controls. Price controls, it was assumed, would follow-but in Washington there were other ideas. Price control, with rationing and wage controls abolished, became profit control. Again, the people heard from their government that business could not be trusted. The New Deal smear campaign was revised, this time with Chester Bowles leading the accusation chorus.

Circumstances have conspired, more or less accidentally, to force a showdown on the issue of a free versus a regimented economy. Given chaos to start from, manufacturers, farmers, processors, distribu tors and all the other suppliers of the nation's needs are going to try to prove they can do a better job under their own initiative and judgment than they were doing under the bureaucratic fumbling of OPA. It is not a fair trial, but it is the best they can expect. Their own government and its backing of clamorous minorities are pulling for them to lose, and trying to make sure they can't win by slapping OPA back on them before the people can learn what it would be like to get along without it.

- Throw away your electric clock and buy a sun-dial. Of course, it won't wake you up for work, but think of the fun you'll have trying to figure out what time it is-on sunny days, anyway. And you'll be saving about 5c every month! At that rate, you'll have the sun-dial almost paid for in only 41 years!
- Donate your electric washer to an orphanage and start doing your wash by hand. In one month, you'll actually have saved 8c! At the end of a year, you'll have almost enough money to pay for a good strong washboard, which you'll be needing by then. The exercise will do you worlds of good, and keep you out of mischief for hours and hours at a time.
- Turn off your radio during "The Electric Hour" on Sunday afternoon. Of course, you'll miss a wonderful program, but you'll save a sixth of a penny every time you do it. In a year, that's nearly 9c. And there's no music so pleasant as those coppers clinking in your pocket!

WEATHER IN JUNE AVERAGE

Maximum Temperature 90, Observer Reports; Year Short On Rain

June saw 1946's summer arrive on schedule, bringing temperature for the month to about average while ainfall was slightly over average ecording to L. H. Copeland of Mill-U.S. weather observer.

Temperature the first and last part of the month was below normal, Copeland reports, but the middle of June saw the mercury rise normal, bringing the month an average temperature of 65.6, equal to the 53-year averof 66.5 for June. A maximum of degrees was recorded June 29 and a minimum of 35 on

The month had 50 per cent sun-nine. Eight days were clear, 17 artly cloudy and five cloudy. Rain fell on eight days.
A total of 4.69 inches of rainfall

was recorded during June, slightly more than the normal rainfall of 3,99 inches over the past 53 years. Good Hay Crops

Copeland reports that a bumper hay crop is being harvested, most crops are progressing nicely with some corn at knee-high length on the 4th of July. The balance of the corn, he says, will require 100 per cent good growing weather to de-

Th year is 48 degrees behind in temperatures and short 3.29 inches in rainfall, he says.

Warmest June on record was 1934 when temperatures averaged 72 degrees while the coldest June was in 1927 when the average was 60.4 legrees. Salem Drops Another In Quest of Victory In Eastern Ohio Loop

ATHLETICS 5 TO

Still rocking around in the doldrums of defeat, the Salem Athletics Thursday dropped a contest to lowly Lisbon of the Eastern Ohio league, 5-1, on the Lisbon

diamond. With Walt Smith on the mound for Salem and Lefty Smith hurling only six hits as Lisbon picked up tories and one loss.

One run in the first, three in the third and another in the ninth gave Lisbon an easy time. Salem failed to score until the final frame.

MAJOR LEAGUE ATTENDANCE RECORD TO BE IMPERILLED

Associated Press Sports Writer

Associated Press Sports Writer

The major leagues wade into the second half of the first post-war baseball campaign today virtually assured of establishing a new season attendance record before the end of this month. They have hopes of reaching the 20,000,000 mark before the season comes to a close Sept. 29. A total of 239.546 fans paid to see yesterday's Independence Day twin bills to boost the total attendance for the National and American leagues to 8,909,352, only two million short of last year's record figure.

Should the New York Yankees and St. Louis Cardinals, respective runs, one in the first game

runners-up in the American and National leagues, spurt to narrow the gaps between themselves and the pace-setting Boston Red Sox and Brooklyn Dodgers, the 20,000,-000 attendance aim may be realized. Neither the Yanks nor the Cards

BY HUGH FULLERTON, JR. PRINCETON, N. J., June 27.—The "kids" call it the "Old Mens" tournament-and with good reasonthough the coaches who came alons the 49th National Collegiate A.A. golf championship still refer to the players as kids ... out of four of the 168 players entered were wearing one of Uncle Sam's khaki or blue suits less than a year ago..... They're a lot older than the boys who usually play college golf—averaging somewhere around 22 with a few up in the 30's. One theory is that the winner will be the player who came out of service first and has had the most time to retain his golfing formOn that basis, Oklahoma's Charley Coe or Louisiana State's Jimmy Wittenberg should be a good bet. They're not only crack golfers, but they had time to play golf while they were in the army

Veterans' job rights are the sub-ject of the following questions from Q—Before I went into ex-GIs:

Q—Before I went into the service my back was in pretty bad shape. I immediately went to a VA hospital for nine months. They gave me wonderful treatment and fixed me up completely. I am now able to do anything I want to in the way do anything I want to in the way of work. I would like to return to my old job, but I don't know as much in it as I did before. Don't and kept it for a year, that is all whether or not I have a right to they have to pay me as much as I you are guaranteed as a veteran.
